# Top 10-2017 Acknowledgements

◀ [Top 10-2017 Methodology and Data](#)

## Acknowledgements to Data Contributors

We'd like to thank the many organizations that contributed their vulnerability data to support the 2017 update:

• ANCAP • ContextIS • ITsec Security Services bv • Paladion Networks • Aspect Security • Contrast Security • Khallagh • Purpletalk • AsTech Consulting • DDoS.com • Linden Lab • Secure Network • Atos • Derek Weeks • M. Limacher IT Dienstleistungen • Shape Security • Branding Brand • Easybss • SHCP • Bugcrowd • Edgescan • Micro Focus Fortify • Softtek • BUGemot • EVRY • Minded Security • Synopsis • CDAC • EZI • National Center for Cyber Security Technology • TCS • Checkmarx • Hamed • Vantage Point • Colegio LaSalle Monteria • Hidden • Veracode • I4 Consulting • Network Test Labs Inc. • Web.com • Company.com • iBLISS Segurança & Inteligencia • Osampa

For the first time, all the data contributed to a Top 10 release, and the full list of contributors is [publicly available](#).

## Acknowledgements to Individual Contributors

We'd like to thank the individual contributors who spent many hours collectively contributing to the Top 10 in

### The OWASP Foundation

works to improve the security of software through its community-led open source software projects, hundreds of chapters worldwide, tens of thousands of members, and by hosting local and global conferences.

[Global AppSec SF](#)  
[October 19th-23rd](#)

## Spotlight: Avi Networks

Avi Networks completes enterprises' digital transformation with its software load balancer, intelligent Web Application Firewall, and modern application services. The Avi Vantage Platform is deployed across data centers and clouds, delivering better elasticity, intelligence, and cost savings by providing granular per-tenant and per-app services. Customers enjoy 5X faster application rollouts, actionable analytics, and 70% lower costs.
